

I Can Statement - Year 5 Maths

Topic Overview - Fractions A	Pre-taught Vocabulary	
This topic covers 'all things fractions'! We will start by sorting out equivalent fractions and swapping improper fractions with mixed numbers. After that, we'll practice ordering and comparing different fractions to see which ones are bigger. Then, it is time to tackle adding and subtracting them together. Finally, you will smash the trickiest bit by adding and subtracting mixed numbers.	Fraction	Equivalent
	Numerator	Denominator
	Unit	Non-unit
	Improper	Mixed

RAG Rating:		Start	End	Teacher
1.	I can find and recognise equivalent fractions.			
2.	I can convert between improper fractions and mixed numbers.			
3.	I can compare and order fractions less than 1.			
4.	I can compare and order fractions greater than 1.			
5.	I can add and subtract fractions with the same denominator.			
6.	I can add fractions within and greater than 1.			
7.	I can add fractions with denominators that are multiples of the same number.			
8.	I can add and subtract 2 mixed numbers
