

YEAR 5 Textiles: Soft Toy Project

Name:	
DT Group:	
Form:	

In this project, students will get the opportunity to design and manufacture a felt soft toy.

Students are introduced to how to design for a specific target market as well as a range of hand sewing techniques, which will challenge them and showcase their creative skills.

They will also learn how to work safely in the textiles room

Subject Vocabulary	
Target market	Embellishment
Design	Pattern
Annotate	Manufacture
Embroidery	Felt

	RAG Rating:	Start	End	Teacher
1.	I can use my imagination to design a soft toy that is suitable for my target market.			
2.	I can annotate the colours, materials and colour embroidery thread that I will use.			
3.	I can consider the size of my drawing when designing my soft toy.			
4.	I can start and finish a row of stitching with a double stitch.			
5.	I can independently produce a line of running and back stitch.			
6.	I can experiment with a range of stitch techniques that could be used on my soft toy.			
7.	I can create a pattern of my soft toy and accurately cut out my design using fabric scissors.			
8.	I can independently mark out, cut, pin and stitch a range of hand embellishments to enhance my soft toy design.			
9.	I can independently and correctly assemble my soft toy using an over stitch.			
10.	I can work safely in the textiles room and follow all health & safety advice.
