Subject: Philosophy and Religion Year: 7

Unit: Why do Christians think that Jesus was God on Earth?	Key Vocabulary	
Topic Overview:		
This term, we will explore the core Christian belief in the Incarnation, which is the idea of God taking human form. We will examine why Jesus's life, death, and resurrection were expected by believers. Throughout the unit, we will investigate who Jesus was, what his character was like, and how he continues to influence people and culture today. As we study his life, we will look at how his story and teachings are expressed through scripture, art, and drama, analysing what Jesus did that people found and still find so inspiring. We will also dive into big philosophical questions, such as evaluating whether miracles are possible using rational thinking and debate. Finally, we will bring our learning into the modern world by reflecting on how Jesus's message connects to contemporary issues of equality, diversity, and inclusion (EDI), considering how different communities interpret his role today. Along the way, we will build key subject skills, including analysing biblical texts, using the PEE (Point, Evidence, Explanation) structure in our writing, practicing SPaG, and developing oracy through class discussions.
