

Ten Tips: Etiquette for students attending a live session

1

In advance of the lesson, you should set up your work space. This should be somewhere quiet, preferably with a plain wall behind you.

2

The place you choose should not be your bedroom.

3

Make sure you are dressed appropriately.

4

Let others know you are about to go online to learn.

5

Respect others taking part in the lesson.

6

Use the chat or raise hand facility if you need to ask the teacher a question.

7

Think carefully about the question you need to ask.

8

Ensure you benefit fully by participating in any activities the teacher asks you to complete.

9

Leave the session as soon as the teacher has finished.

10

Ensure you are always polite and respectful.
